

FATHER, HELP US

(d – minor)

1. We sometimes feel alone and like to sigh and moan despairing.
We look for evidence, don't understand the sense of bearing
disappointments, troubles, blows, all the difficulties, life shows, the crying
in the fog which envelopes with all the wishes, and our hopes, which are dying.

Refrain: Help us to get out of our valleys, Father, help us
Stop the pain in our bellies and heal the mind, let's stay not blind.
Help us to resist all the temptations, Father, help us,
show the way to revelation, how to grow and where to go.

2. With despair in our soul we can't find our goal, mixed feelings.
In all walls around no way out can be found, which is healing.
We try to reach the gate, safeness we simulate, live in illusions.
How often we feel weak on our ways to seek solutions.

Refrain: Help us, to walk through the great mad jungle, father help us
to withstand, to still the hunger. Show the way out of the gray.
Help us, let us overcome the sorrow, Father, help us,
Give us shelter today, tomorrow and be there, lend your care.
