

GOD CREATED CULTURES AND RELIGIONS

(Ees – major)

1. GOD created cultures and religions,
the variety of our nature too,
and the multiplicity of galaxies, no fiction.
Every man shoes his signature. That is true!

GOD loves each one of us, each one is his creation.
We all are children of his marvellous universe.
We can be sure, this planet is not the last station.
We`ll live forever, there`s no ending here on earth.

2. And by Christmas GOD is declaring his intention
to attend us, staying always at our side.
And there`ll be no one escaping his attention,
for each of us his arms will be open wide.

For we all are precious drops in the mankind`s ocean,
and each one of us can start a wave of change.
But we all need help of other drops in motion,
Our living together we should rearrange.

Let`s not ignore it, we all are made out of GOD`s mercy.
That`s the message, Christmas tries to send.
And each one of us GOD embraces and is worthy
to get back to his source, the holy land.
