

IF FEARS AND NEED BRING SORROW, TROUBLE

(G- major)

Preload: G – C – D – G

1. If fears and need bring sorrow, trouble, when our world seems to collapse,
if the hope bursts like a bubble, and there`s no joy, just tedious steps,
then, GOD, give us courage, patience for the hard times, that will come,
let us believe in your creation, that all wounds are healed in the long run.
2. And if we moan and grieve or suffer and we lose braveness and confidence,
when life shows dark sides and gets tougher, we can`t see a light, a sense,
then, oh GOD, give us assistance and show mercy, dry the tears.
Help us to overcome resistance, that leads to helplessness and fears.

Interlude: like song stanza

3. Grant the strength in days of danger, if there is no good advice.
Give ideas to rearrange where ever chaos might arise.
If once we will doubt and despair, and it`s hard to remain sincere,
then bestow endurance us to bear all the problems, which appear.
4. Life means not, you can get no sorrow, only to live in joy and peace.
But always there will be a tomorrow, if a day leads us to freeze.
GOD, you`ll leave a window open, if the people close the door.
You can give courage and hope and lead us to the final shore.
