

THE CREATION

(C-major)

Prelude: C - C2 C4 - C - F - C - C

1. All, what you see and can perceive, visible - invisible
may help to realize and to believe in God`s grace and his will.
All the small things or the great ones show inexhaustibility.
All the marvels under our sun, point to that last energy.

2. And the universes, atoms take their breathe from that last might.
Multiplicity will let Him grow as the poet of the life.
Look up and through microscopes and you`ll be amazed at what you`ll see.
Work with prisms, telescopes and you`ll admire variety.

Interlude: C - C2 - C - C - C4 - C
C - F - C7 - F - C4 - C
G - F - C - F - G - a
d - B - G - F - B - C

3. His abilities are infinite, in the interstellar space and here on earth.
He knows neither cuts nor limits for to build up this universe.
Therefore don`t hurt this creation, serve it, all times honor it.
Mind the following generation! The earth demands respect a little bit.

Afterlude: C - F - C - F - C - F(fading)
