

AT THIS TIME, NOW HERE AT THIS PLACE

(D – major)

Prelude: D - A - G - D - G - A - D

1. Now, at this time, now here at this place
give my respect to you, always I'll be there,
I realized, you're the unique great present.
We beg the Lord for his escort on our ways,
- I'll give my promise to you, face to face,
if bad times come, your sorrows I will share.
The higher might had ruled the paths, we went.
now at this time, now here at this place.
2. I'll give my love for you, I'll put my trust in you,
Try not to hurt you, nor bend you, nor distort,
I'll take you like God's creation just for me,
There'll be no mountains for us to high to climb
- build up my future together with you, too.
exert myself for to understand your thought.
despite my hugs you always will be free.
at any place and not at any time.
- Interpart: D - A - G - D - G - A - D4 D
3. And if the road for us seems stony, rough,
And if they force us begging our knees,
we will adhere to the faith and to the might,
We will accept his invitation for our ways,
- and our works get weary, displeased, tough.
if we're surrounded by madness, infamies,
with its warmth and everlasting light.
now at this time and here at this place.
4. The Lord can help, if mighty winds will blow,
And with his aid we'll overcome each night,
He gave to us a sign of divine love:
You can be sure, GOD will always grant his grace at any time and also any place.
- he's on our side until our afterglow.
he's healing souls, he's looking deep inside.
he sent his son from heaven's spheres above.
At any time and also any place.
