

# CHILD OF THE UNIVERSE

( D – major )

Prelude: D – G – D – A – G – D – D

1. I have been gone on twisted ways  
with moments of joy and awful days.  
And two times I walked my own lonesome trot,  
I didn't like a punishing GOD.  
He led me back, I reconciled  
with my Father, I'm a heaven's child.

2. You may adhere to mammon, might,  
may be, that luxury will bring delight,  
may be, that some guys need success,  
need reputation, but I confess:  
I don't need reverence or a great filled purse,  
'cause I'm a child of the universe.

Interlude: D – G – D – A – h – G – A4 A  
C – e – D – G – D – A – D4 D

3. I learned to know, that heaven's plans  
mean more than time between birth and end.  
I had to learn, goods don't mean bliss,  
the more you get, the more you'll miss.  
There other values, which are of worth,  
when you feel, you're a child of the universe.

4. And then, when once the curtain falls,  
and I'll go back to heavens hall's,  
back to the garden without tears,  
without regret and pain and fears,  
I'm sure, that death leads to new birth,  
'cause I'm a child of the universe.
