

IT `S GOING ON, DEAR

1. The small creek flows, slowly to grow
So life, at first clumsy, you know,
You will increase with darkened days,
Even if toil escorts your ways,

to that great stream towards the ocean.
expands by learning and emotion.
the confidence warms like the sun, dear.
it`s going on, dear.

2. Together we had fought some fight,
took care of uprightness and pride,
We swore us faithfulness and trust,
Even if sometimes we had lost,

but never someone left us broken,
we didn`t get hurt by what`s been spoken.
we could resist malicious fun, dear.
you`ll help me to go on, dear.

IP: What could be life without you, dear,
We didn`t part at all the time,
Even if the fate will bring sorrows and tears

I`m just content, if you are near.
so many hills we had to climb.

3. We always found the way straight out
There had been times for us to doubt,
We had to book some faults, mistakes
And even if the world might break,

of situations without outlet.
but all the more for us an outset.
and many steps, that we had done, dear.
its going on, dear.

IP: I am indebted to your love,
when raindrops fall from high above,
You built me up, dried my tears,

when you were there, when wheels turned tough,
you took the care, when times were rough.
helped me to go on, dear.

4. We`re looking back to luck and grief,
to all the aims ,that we achieved,
II: And thanks to God, his love as well,
if even death rings his last bell,

to values, mountains, we were traversing,
to all new sights for us converting.
for all the good things, that he had done, dear, :II
life`s going on , dear.
