

Judgement

(E – major)

1. You show abhorrence, indignation,
you don't snare with sneer, critique.
Everywhere you feel hate, conspiracy,
hear always words, false, oblique.
Often you use piercing tones offending
many times you hurt the men.
You don't perceive the signs, they're sending,
if the limit is transgressed then.

2. And you take delight in disgrace,
which befalls the other one,
and you like to judge, lay waste,
to deride, whatever runs.
You don't look behind the curtain
and don't ask for reasons, aims.
Just atonement for us is certain,
sense for revenge you like to proclaim.

Interpart: E – A – E – gis – H – A – H – cis – A – E – H – cis – H – A – D – G – E

3. But you also show weak points, foibles,
they'll reproach to you some day.
To remind will be no problem.
For your attacks once you might pay.
But last not least the worst of all:
when you put all this on your spell
and by the devils, you like to call,
already now you live in hell.
Already now you live in hell.
