

# LET US FEEL THAT YOU ARE NEAR

(C-major)

Prelude : C - F - a7 - F - C4 - C

1. Thanks for the moment, when I awake, when daylight breaks , a new day greets,  
and that I'm okay from head to feet able new tasks to undertake.  
Thanks for the ability to move and for the faculty to think,  
For all occasions when I can laugh and sing, the chance, circumstances to improve.  
Thanks for the time with joy and cheer. Let us feel that you are here.  
Let us feel that you are near. Let us feel, that you are near.
2. You're in the background unobtrusive willing to help and to support,  
But mostly we forget it, Lord, think, you're far away in other spheres.  
We need the breath, you give, and the vital power you pour out,  
But often we prefer to doubt, in shallowness we use to live,  
We are occupied by anger, fear. Let us feel that you are near.  
Let us feel that you are near, let us feel that you are here.

Interlude: F - G - a - F - G - A - d - C - G - F - G - C - F - G - a - F - C - G

Interlude: Let's listen to your holy message  
in all countries, from coast to coast!  
In every town and every village  
spread out your transforming holy ghost.

3. There is no day without you, Lord, without your open ears, your care.  
All the time we can share with you all our sorrows, pain and fear.  
You, GOD, will never cut the cord between creator and mankind,  
Even if we stay abstinent and blind and if to complacency we adhere.  
Nothing can drive your love away, you're waiting for us any day.  
Let us feel that you are here. Let us feel that you are here.
