

MORNING

(G - major)

Preload: G - G4 - G - G4 - D - G

1. Friend, don't think about tomorrow at this marvelous morning now.
Let's forget the need and sorrow and what leads to grief somehow.
2. Like the brightness of the sunbeams supersedes the darkened night,
thus will disappear the bad dreams, when the soul is filled with God's light.
- Chorus: Let us overcome the hours of this day, just as You like.
Let's adorn the world with flowers and for peace and freedom strike.
3. God knows our fears and sorrow and the faults, bad words, we say.
He will help today, tomorrow and surely also every day.
4. So we can trust on his great favor, he attends at all, we do.
He's the everlasting savior, his love invariable and true.

Chorus: Let us overcome the hours.....

5. He stands at your side, when you suffer, he helps in troubles to survive.
Even if the times get tougher, at his side you will stay alive.
6. On his friendship you can count on, he is thankful for your love.
He's the everlasting mountain for refuge, so look above.

Chorus: Let us overcome the hours.....
