

WHERE IS GOD?

(E – major)

Prelude: E E E A E H cis A H

1. Earth is bleeding, hurricanes born, earthquakes and vibrations.
Human being, led by scorn, tries to judge GOD for vexations.
What`s the aim and the design for this senseless dying?
Accident`s game or perhaps a sign we are just denying?

2. Death of children, cancer, suffering, people in destitution,
greed for gains, jaundice covering, exploitation, no solution,
to many tears, grief and sorrow, men in desperation,
living in fears of tomorrow, left in isolation.

3. For the descendants without securing atomic disaster,
belief in progress, but who will be curing, who`s the damage`s master?
Exhausting the soil of raw materials, rivers contaminated,
poison in oceans, crime imperials, changes of DNA not contemplated.

Interlude: E E E A E H A E H

4. We`re disdaining and complaining, where`s GOD`s intervention.
If we are blaming, he`s withdrawing, we should also mention,
be sincere, upright and pure: That, what`s occurring,
that, what we fear, have to stand, to endure, is born out of that, what we are stirring.
