

WHY ?

(G-major)

Prelude: G - G - G - G

1) Why do you steal my teeth, my friend?

Gold means more than ivory!

You don't shed a single tear,

when slaughter of seals you happened to see.

2) Why do you cut my fins, my friend,
and fling me back into the sea.
Leave me behind for a cruel end
Just for a soap, which cannot please.

3) What's enjoying for one minute,
when you case and hurt the game.
Is your greed of blood infinite,
what beings feel, it's all the same?

Refrain: Why do you torment all the animals

Steel their dignity, self-determination,

Also animals have souls,

What's your answer, when GOD controls,

just for own bliss, or just for fun?

break their necks and kill by gun?

will turn back to heaven's hall.

if to account you will be called?

4) Why must be legions of living beings,
crammed together, who lashes allows?
Why do they die with thirst
in the stock-cars to the slaughter house?

5) Why do they wear my fur and plumage,
need my fat, my testicles, my horn?
Well, I'm sure you can find fabrics,
which can better shelter, warm.

Refr.: Why do you torment

6) You are the "crown of the creation",
but you're harming nature's size!
For the following generation
you'll leave destruction, for which price?
You'll leave destruction, for which price?
