

YOU HIT ME DEEP IN THE HEART

(F – major)

F F

1. I stood there stunned and hurt
and I saw you walking down-street,
Every word you said was humiliating.
and have given no chance to make amends.
I wasn't able to say anything,
and you did not realize,

c

in front of our door,
the only woman I adore.
You have tried to revile and to offend
Your attacks didn't seem to end.
to represent and explain my part,
well, you hit me deep in the heart.

2. For many years we were together,
I know, that love can't be demanded,
It's a fact, you must accept it,
Once we loved, esteemed, respected,
While I wish the tide will turn,
The split between us is – I suppose - too deep. Well, you hit me deep in the heart.

but now it is all over, Dear.
it can grow or disappear.
but disappointment will remain.
but now I feel just hate, disdain.
there will be probably no restart.

3. Everyone grows through the understanding
But not by the great and brilliant successes,
you can get eternal affection,
The shared experience gives no security,
Times have changed, I'm staying alone,
but the door is always open to you,

and appreciation he receives.
that one aspires to and achieves,
relationship forever will last.
and you can't rest on the past.
I guess I have to remix my cards,
though you hit me deep in the heart.
