

# I`M READY TO TAKE OFF

(e – minor )

## Prelude:

e – h – G – D – e  
e – D – a – e – h – G – A – H – e

1. I`m ready to take off, I know, I have to go.  
The day to take stock has come to me,  
to look at, what had happened, and what I got to know,  
the difficulties, the results, which now I see.  
If I look at the past, I must confess, I`m really glad  
and thankful for the hours filled with joy,  
but also for the dark times, the moments, when I was sad,  
which gave me the chance to grow without to sigh.
2. Well, life here on earth, it will end once, as we know,  
but when I leave you please, don` t grieve, don` t bother.  
I` ll go upright and with dignity, and with the pride, which I will show,  
to call you as friends. We fought for one another.  
Now I look into your faces without sadness, without to moan.  
I` ll go with consciousness. The future is fascinating.  
I`m not afraid of death, what might occur, I won` t be alone.  
Behind the wall real life is still waiting.
- Interlude: e – D – C – DG – G – D – C – DG
3. Many things I wanted to alter, my mind was filled with plans,  
and still some things on earth are worth to make them better.  
But for all of us, one day here everyone will come to an end.  
The time is short. I have to write my last letters.  
I wish you strength and courage for the time you have to stay;  
may fate will bring no instants of desperation.  
I hope, it will grant more hours to live in peace and joy,  
but my own soul demands the farewell, shows vibration.
