

HUMILIATION

Prelude: II: g - B - F - C - g - B - F :II

1. She had been kicked, hit and humiliated,
he never showed respect for his own wife.
In the outside view she seemed not to be frustrated,
she accepts her situation, her course of life.
She`s always offended, bullied and derided,
he always plays the same old game:
He strikes her down with pleasure, he can`t hide it
finding each time reasons, why she`s to blame.

Bridge: How many evil treatments brought devotion,
how many hurts she endured the last years?
She just functions, she shows no emotion.
There`s no revolt, you can see just fear.

Interpart: II: g - B - F - C - g - B - F :II

2. How deep can a woman descend
To suffer all this disdain?
How much poison must she receive and
how many tears until it`s all the same.
What in her life must come or happen,
until she once will effervesce?
How to resist and what`s the weapon
to fight against him, to protest.

End: Where is her last pride and her dignity
to erect from shame and from disdain,
to withstand his current malignity
and to forget the inflicted pain?
