

I WILL GET THROUGH IT

Vorspiel: II: C - F - C - F Fis G :II

1. Yes, I was confused, I had to swallow,
the diagnosis "Cancer!" was a shock.
I was ready to do everything possible and to follow
all recommendations, made me strong as a rock.
I didn't want to go into deep depression,
Everything the doctors asked, I would do it.
Positive thinking could help, was my impression.
And whatever might happen, I will get through it.

2. May be, there will be some people, who will enjoy
my early departure, if I have to tear down here my tent,
but I'm afraid, their hope I will destroy.
To leave the train now I really don't intend.
So far I haven't thought about shrouds and burial sites.
When the time is right, I surely will do it.
I still don't see the vultures circling by my side.
Whatever comes my way, I will get through it.

Interlude: II: C - F - C - F Fis G :II

3. Maybe I should rethink, reorganize some things,
that haven't worked so well so far.
Maybe I should treat myself to less alcoholic drinks
And not paying attention to quick profit and fast cars.
There are more things in our lives that are important,
And if I'm really honest, I always knew that.
For trivialities life is too short and
I got it, I will get through.

Afterlude: II: C - F - C - F Fis G :II C
