

# FATHER, WHEN WE ARE IN TROUBLE, DISTRESS

Prelude: D - A - G - D - G - A - D - D

1. Father, when we are in trouble, distress,  
and the world seems to be breaking through,  
when worries make us restless, helpless  
and we don't know what to do,  
You will help to find the way out,  
Your love donates help in need.  
You can drive away the grey clouds,  
with Your support we will succeed.

2. When we moan, complain and suffer,  
give us courage and stand by.  
When the wind blows colder, rougher,  
grant Your protection and send your light.  
Nothing ever cuts the bond and  
can disjoin us from Your grace  
that we always can count on and  
that will guide us on our ways.

3. Give us hope in desperation,  
when we are laying on the ground,  
and the world longs for salvation,  
hatred and fear are all around.  
Help to find peace and solutions  
in a world of death and war  
without violent revolutions.  
Remind us what we should strive for.

4. Live doesn't mean to stay in high spheres,  
we also must accept suffering and pain.  
We will keep seeing hardship and tears,  
but GOD's help we always can obtain.  
The Holy books and their message  
point to GOD's mercy and his grace.  
Living on earth is just the passage  
to real life in a better place. D - G - A - D
