

WHY DO WE ALWAYS STRUGGLE

(C – major)

Prelude: C - C7 ½ - F - C - F - G - C - G
a - G - F - C - F - CG - C

- 1.** Why do we always struggle for the truth and for the right?
and cause anger, grief, rejection, why do we repress, why do we fight?
Why do we build walls of silence and keep distance because of fears.
Why do we pursue our own goals without regarding all the tears.
- 2.** Why do we like to hurt other people, why do we rely on dubious guides?
Why do we like humiliation of others and have fun, if they lose their pride?
What kind of spirit encourages denunciation and denies others their wealth?
Any arrogance and condescension will remove us from ourselves!

Bridge:

Why do we fight and wage wars disregarding our past?
Why do we kill and spread destruction, no matter how long it will last?
Just a handful of treacherous leaders simply proclaim: Now is war!
and send losers to their deaths, who don't know, what they are fighting for.

Interlude: C - C7 ½ - F - C - F - G - C - G
a - G - F - C - F - CG - C

- 3.** Why do we fight with bombs and shells and accept the death of innocents?
Why don't we realize that the oppression of other people makes no sense?
We must learn, we all are connected, we all here have the same origin,
and that peace can only arise if this insight once will win.

Afterlude: C - C7 ½ - F - C - F - G - C - G
