

NOTHING LIKE ALWAYS

Prelude: C - F - C - F - C - F - C - F

1. Nothing like always, nothing the same!
Nothing is normal. Who is to blame.
No one could foresee an infection like this,
that we would get lonely and human closeness miss.
We`re all affected, we`re all in the same mess.
Whatever we do, there will be stress.
Whether young or old, wether rich or poor,
we all need a shelter, we all must endure.

2. Such a strange situation here on earth.
You can feel new vibrations, perhaps a new birth:
a start of serious reflection to avoid the burst,
the realisation of unity. No „Our country first“,
a new sort of battle, another kind of fronts,
a new challenge, that no apology or respite grants.
it`s about overcoming the destructive, shared fate.
The time is running out. Perhaps it`s not too late.

Interlude: F - F - a - a - F - F - G4 - G

3. It`s five to twelve to turn the wheel back around
We didn`t listen to the warnings, to what experts had found.
The virus revealed our faults and mistakes.
Just insight can heal us and help to awake.
We are too networked to dare to go it alone.
We all are challenged to fight instead of to moan.
We need one another to win this difficult fight.
At the end of the tunnel we shall reach the light. C4 C C4 C
