

WE DON'T LET OUR HEADS HANG DOWN

(E – major)

Prelude: E - A - E - A

- ^E
1. We don't let our heads hang down, we're looking ahead now,
^G ^A ^E
even if the whole world is turning upside down.
^E ^A
I'm sure, that we'll get through this, somehow.
^G ^A ^E
We're not going to crawl to the ground.
2. Some obstacles will be put in our way,
but we'll overcome them with all our might.
Is the view also cloudy and the sky is grey,
for us there is always land in sight.

Interlude: C - D - E - C - D - E

3. There'll be some rocky hills to climb, I suppose.
May be that harder times for us will come.
But at the top of the hill we'll be a little closer
to heaven and happy with what we have done.

Refrain: ^G We don't let our heads hang down, we'll fight it out. ^A
^G ^E
even if they try to press us against the wall.
^G ^C
We carry courage and confidence, we do not doubt.
^{Fis} ^H
we get up again, when we fall.

Interlude: E - A - E - A - E7 - A - Fis4 Fis - H
E - A - E - A - E - A - Fis - H4 - H

4. Trials and adventures that we must face
will challenge us and force us to break new ground.
But we are quite willing to leave our old ways,
By outdated beliefs we don't feel bound.
5. And if there's a large stream that separates from the other shore
with unknown depth and swirls. I guess
that each of us the deep water and danger will ignore.
We'll all reach the other side, blessed with success.

Interlude: C - D - E - C - D - E

6. When storms shall rage with fearsome thunder without delay,
and we'll be confronted with a charged atmosphere,
when there are situations, in which hope can fade away
we'll march on upright, calm and without fear.

Refrain: We don't let hang our heads

End: E - A - E - A - E(fading)
