

WHY, DEAR BROTHER, DO YOU LIKE KILLING

(a – minor)

Prelude: a – C – G – D – a – F – E

1. Why, dear brother, do you like killing
Why do try to hurt, not willing
What`s the reason to condemn, to hate
for the challenge, that you have made,

those who come from other parts of the earth?
to accept those separated by race and birth?
those, you never learned to know,
for the relentlessness, which you show?

2. Why do you think, you have to kill, friend,
to influence people against their will and
Why do you think, you are the leader
How do you justify every atrocity, where-

to build boundaries you always proclaim,
try to abuse them for your aim?
who decides who can live, who`s to die?
and whenever it happens and ignore the cry?

How do you get the right to decide
On which high steed do you ride

what is right and what is wrong?
to declare what`s weak, what`s strong?

Interlude: a – C – G – D – a – C – F – E
a – C – F – E – a – G – F – E

3. Who sent you to raise the weapons
ignoring all the cruelty, which happens,
You think you have found the right way
And you say, it is my way

just to spread your own belief and truth,
trying to seduce all the innocent youth.
to cleanse humanity according to GOD`s will.
by force GOD`s mission to fulfill.

4. Everything on earth sprang from one source,
connected and united by one force.
You should understand, that our creation
Any attempt at separation

in everything the same flame burns
The harm you spread, well, it returns.
is characterized by wealth of forms and diversity.
contradicts its identity.

No one on earth has got the right
For common survival we should fight

to proclaim here: "This GOD is mine!"
to prevent the world`s decline!
