

# DECLARATION OF LOVE

Prelude: C G - F C - F2 C - d G

1. I don't know what binds me  
what fascinates me so much about you,  
I don't know what sort of feelings  
What's buzzing around in my head.

Ees B  
I don't know what kind of fever  
Aes Ees  
A hurricane is churning inside me  
Ees B  
May be it would be better for me  
Aes Ees  
but I just can't escape you. You rule

2. But I bear to ever lose you again,  
I'm always on cloud nine,  
I'll give myself completely to you  
I'll reveal all my secrets to you.

May be, it's a hidden  
May be it's the way  
I know, if I would need you  
you will stand by my side,

Interlude: C G - F C - F C - F2 G - C G - F2 C - F C - F G -

3. When sorrows start to get to us  
when everyday stress overwhelms, annoys,  
then I know that with you I can solve  
Even if life throws somersaults,

Should I mess it up one day although,  
I will always do my best for you,  
Whatever fate intends for us,  
I will walk every difficult way with you,

4. And when at some point the end will come  
when I will take my last breath  
you don't regret anything that we both had done,

Then I would leave this place in peace,  
G C G - F C - F C - G C  
a long and beautiful way.

F C  
and I can't explain it at all,  
F C  
I'm kind of caught in your trawl.  
F C  
stir me up and won't let me rest.  
F G  
It's your loving way I guess.

Aes Ees  
keeps haunting and shaking me.  
Aes B  
I've to think about you constantly.  
Aes Ees  
not to be under your spell,  
Aes B C  
my thinking, infiltrate every cell.

I need you like I need my breathe.  
a state that should never cease.  
with passion, with skin and hair.  
I will follow you everywhere.

longing for security.  
you presented yourself.  
in times of anxiety,  
even if the clock strikes five past twelve.

and future may seem bleak,  
and our knees slowly become weak,  
all the problems that come our way.  
with you I won't regret a single day.

forgive me, I'm not perfect as you know.  
I will lay all my belongings at your feet.  
faith and courage we will show.  
I will care for all what you'll need.

and I can already feel Eden's scent,  
then I would wish again like today,  
nor a day together with me to the end.

knowing we'd come
