

# THE BOND OF OUR CLOSE FRIENDSHIP

Prelude: D - G - D - DA - D

D G D G D A

1. Our friendship has lasted for so many years. With happy hours we often had been blessed.

D G D G D A D

Now white and grey hair adores the head skin, and after lunch we now need relaxation and rest.

G A D G A D

But wisdom, common sense we still are missing, because we feel as young as we did in our youth.

G A h G D A

We still happily roam our streets at night whistling, convinced that our good mood we will never

D  
lose.

2. We had many interesting and worthwhile discussions

spending a lot of time with us in our living room

talking about Africans, Chinese, Europeans, Russians.

To agitation and incitement we'd always been immune

No serious problems were swept under the carpet, glossed over or just had been ignored.

None of us have ever been targeted. The conversations were often long, the time too short.

Refrain:

D A G D

We know we can always rely on you.

You tell us openly when something is wrong.

G D G D A

We value your sense of justice and truth.

You always know whose side you are on.

D A G D

If we are asked what is important we confess and there's really no need to discuss:

G D G D A D

More than wealth, goods and all success

is the bond of our close friendship for us.

3. We enjoyed a lot of evening's meetings

combined with delicious drinks and food.

The rounds were always characterized by humor and good feelings.

There was never a bad atmosphere or a bad mood.

And even if at some times we had to live in distance, we always felt that we were near.

Everyone of us immediately had been present, if the situation became severe.

Refrain:

D A

We know we can always rely on you.....
