2. My gaze leads into the background, I question cause and fate.

In search of suitable solutions, I look within myself and contemplate.

Who offers us a clear overview and can guarantee satisfaction and happiness?

What gives you confidence? How do you achieve success?

It took me a really long time to learn and realize

that without empathy and sincerity you won't be satisfied or get wise.

I believe that if you want fulfillment to enrich your life,

it will make sense for empathy and love to strive. C G
